

REMARKS

In the Action mailed on February 13, at page 4, line 3, the Examiner states that amending claim 1 to recite breaking of Si-N bonds with the features of claim 5 would result in withdrawal of the art rejection. This amendment is now made, and claim 5 is canceled without prejudice to reentry. The claims are also amended to overcome the §112 rejection. Therefore, entry of this paper should put the application into condition for allowance, and is therefore proper after final rejection. Entry and allowance are requested.

Respectfully submitted,

June 27, 2006
